CONTENTS OF VOLUME 18

Volume 18, No. 1, 1986

Symposium

Introduction to the symposium: exercise in the treatment of obesity
Elsworth R. Buskirk 1

Direct calorimetry and the energetics of exercise and weight loss
Paul Webb 3

Dietary-induced severe obesity: exercise implications
Lawrence B. Oscai and Wayne C. Miller 6

Metabolic aspects of exercise and weight reduction
Edward S. Horton 10

Exercise as a partial therapy for the extremely obese
Richard M. Lampman, David E. Schteingart, and Merle L. Foss 19

Special ergometric techniques and weight reduction
Lois M. Sheldahl 25

Original Investigations

Electro-mechanical response times and rate of force development in males and females
Douglas G. Bell and Ira Jacobs 31

Bioelectric characteristics of the electromechanical delay preceding concentric contraction
Mark D. Cabiner 37

Analysis of the reliability and validity of the kinetic communicator exercise device
Martin Farrell and James G. Richards 44

Effects of selected softball bat loading strategies on impact reaction impulse
Larry Noble and John Eck 50

Relationship among anthropometric and stroking characteristics of college swimmers
Susan K. Grimston and James G. Hay 60

Stretch sensitivity of Golgi tendon organs in fatigued gastrocnemius muscle
Robert S. Hutton and Daniel L. Nelson 69

Factors in delayed onset muscular soreness of man
Maarten F. Bobbert, A. Peter Hollander, and Peter A. Huijing 75

Exercise intensity and erythrocyte 2,3-diphosphoglycerate concentration
Sandy S. Hsieh, Patty S. Freedson, Mitch C. Mroz, and Patricia M. Stewart 82

The effects of aerobic conditioning and/or caloric restriction in overweight men and women
R. Donald Hagan, S. Jill Upton, Les Wong, and James Whittam 87

Modification of cellular immune functions in humans by endurance exercise training during β-adrenergic blockade with atenolol or propranolol
Ronald Ross Watson, Satoru Moriguchi, J. C. Jackson, Lisa Werner, and Jack H. Wilmore 95

Caffeine alters ventilatory and gas exchange kinetics during exercise
Scott K. Powers, Stephen Dodd, James Woodyard, and Michael Mangum 101

Anaerobic contribution to distance running performance of trained cross-country athletes
Ronald Bulbulian, Anthony R. Wilcos, and Barbara L. Darabos 107

Effect of blood pH on peripheral and central signals of perceived exertion
Robert J. Robertson, Jeffrey E. Falkel, Allan L. Drash, Ann M. Swank, and Kenneth F. Metz 114

Triathlete characterization and response to prolonged strenuous competition
Robert G. Holly, R. James Barnard, Monroe Rosenthal, Elizabeth Applegate, and Nathan Pritikin 123

The effect of training on exercise-induced R-wave amplitude changes in young females
Bo Fernhall, Lee N. Burkett, and Steven C. Walters 128

Left ventricular performance of the ahtletic heart during upright exercise: a heart rate-controlled study
Bernard J. Rubal, J. Mark Moody, Stuart Damore, Stephen R. Bunker, and Noel M. Diaz 134

Volume 18, No. 2, 1986

J. B. Wolffe Memorial Lecture

Is the lung built for exercise?
Jerome A. Dempsey 143

Original Investigations

Effects of iron deficiency on endurance and muscle enzyme activity in man
Fredrik Celsing, Eva Blomstrand, Björn Werner, Peter Pihlstedt, and Björn Ekblom 156

Training for cross-country skiing and iron status
Emily M. Haymes, Jacqueline L. Puhl, and Thomas E. Temples 162

Hemoglobin desaturation in highly trained athletes during heavy exercise
Jay H. Williams, Scott K. Powers, and M. Kelly Stuart 168

Erythrocyte 2,3-diphosphoglycerate and serum enzyme concentrations in trained and sedentary men
P. Lijnen, P. Hespel, S. Van Oppens, R. Fiocchi, W. Goossens, E. Vanden Eynde, and A. Amery 174

Blood biochemical status of miniature swine during submaximal and exhaustive exercise
J. E. Wilkerson, T. M. Sanders, and C. M. Bloor 180

Differentiation of exercise-induced metabolic responses during selective β_1- and β_2-antagonism
Peter Hespel, Paul Lijnen, Luc Vanhees, Robert Fagard, Roberto Fiocchi, Emmanuel Moerman, and Antoon Amery 186

Effect of intravenous caffeine on liver glycogenolysis during prolonged exercise
William W. Winder 192

Exercise training effects on serum lipids of prepubescent boys and adult men
Mark P. Savage, Marlene M. Petratis, Wade H. Thomson, Kris Berg, Jack L. Smith, and Stanley P. Sady 197

Recovery energy expenditure for steady state exercise in runners and nonexercisers
Barbara A. Brehm and Bernard Gutin 205

Influence of supplemental oxygen on the physiological response to the PO_2 aerobic exerciser
A. D. D'Urzo, F. L. W. Liu, and A. S. Rebuck 211

Validation of body composition models for high school wrestlers
Henry N. Williford, Joe F. Smith, Edward R. Mansfield, Michael D. Conerly, and Phillip A. Bishop 216

Optimal pedalling rate in prolonged bouts of cycle property
J. Richard Coast, Ronald H. Cox, and Hugh G. Welch 225

Maintenance of body orientation in the flight phase of long jumping
Walter Herzog 231

Coordination of segments in the vertical jump
Jackie L. Hudson 242

Erratum 251

Volume 18, No. 3, 1986–Special Symposium Issue

Pediatric Exercise Physiology in Health and Disease

Habitual physical activity in children: methodology and findings in health and disease
Wim H. M. Saris 253

Anaerobic characteristics in male children and adolescents
Omri Inbar and Oded Bar-Or 264

Longitudinal approach to assessing maximal aerobic power during growth: the European experience
Joseph Rutenfranz 270

Pathophysiological factors which limit the exercise capacity of the sick child
Oded Bar-Or 276

Determinants of the Polymorphic Expression of Myosin

Introduction to the symposium: determinants of the polymorphic expression of myosin
C. David Ianuzzo 283

Cardiac and skeletal muscle myosin polymorphism
Susan Lowey 284

Development of neuromuscular specialization
A. M. Kelly and N. A. Rubenstein 292

Sarcomeric myosin heavy chain gene family: organization and pattern of expression
Vijak Mahdavi, Emanuel E. Strehler, Muthu Periasamy, David F. Wieczorek, Seigo Izumo, and Bernardo Nadal-Ginard 299

Functional consequences of altered cardiac myosin isoenzymes
Norman R. Alpert and Louis A. Mulieri 309

Athletes and Exercise-Induced Bronchospasm

History of exercise-induced asthma
R. Michael Sly 314

Pathophysiology of exercise-induced asthma
Peyton A. Eggleston 318

Implications of air pollution effects on athletic performance
William E. Pierson, David S. Covert, Jane Q. Koenig, Tsukasa Namekata, and Yoon Shin Kim 322

The U.S. Olympic Committee experience with exercise-induced bronchospasm, 1984
Robert O. Voy 328

Prevention with and without the use of medications for exercise-induced asthma
Roger M. Katz 331

Lactate: Its Production and Fate with Exercise

Exercise intensity, training, diet, and lactate concentration in muscle and blood
Philip D. Gollnick, Warwick M. Bayly, and David R. Hodgson 334

Biochemical and physiological bases for lactate production
W. N. Stainsby 341

Mechanisms and patterns of blood lactate increase during exercise in man
Karlman Wasserman, William L. Beaver, and Brian J. Whipp 344

The application of isotopes to the study of lactate metabolism
Joseph Katz 353

The lactate shuttle during exercise and recovery
George A. Brooks 360

Volume 18, No. 4, 1986

Original Investigations

Reproductive hormone increases in response to acute exercise in men
David C. Cumming, Louis A. Brunsting, III, Gideon Strich, Andrew L. Ries, and Robert W. Rebar 369

Women athletes with menstrual irregularity have increased musculoskeletal injuries
Tom Lloyd, Steven J. Triantafyllou, Elizabeth R. Baker, Peter S. Houts, James A. Whiteside, Alexander Kalenak, and Paul G. Stumpf 374

In vivo opioid receptor occupation in the rat brain following exercise
Gary A. Sforzo, Thomas F. Seeger, Candace B. Pert, Agu Pert, and Charles O. Dotson 380

Adrenocortical function of female endurance runners and joggers
Hannele R. A. Ronkainen, Arto J. Pakarinen, and Antti J. I. Kauppila 385

Metabolic factors from exercising muscle and the proliferation of endothelial cells
Harold W. Burton and Jack K. Barclay 390

Exercise tolerance and compensatory sympathetic tone during β-blockade after myocardial infarction
Glenn Brice and H. Lowell Stone 396

Breath holding during the turn in competitive swimming
Albert B. Craig, Jr. 402

Reduced exercise time in competitive simulations consequent to low level ozone exposure
Edward S. Schelegle and William C. Adams 408

The effect of extra-load conditioning on muscle performance in athletes
Carmelo Bosco, Heikki Rusko, and Juhani Hirvonen 415

Cardiac size and $\dot{V}O_{2max}$ do not decrease after short-term exercise cessation
Eileen M. Cullinane, Stanley P. Sady, Louise Vadeboncoeur, Michael Burke, and Paul D. Thompson 420

The reproducibility of $\dot{V}O_{2max}$, ventilatory, and lactate thresholds in elderly women
V. L. Foster, G. J. E. Hume, A. L. Dickinson, S. J. Chatfield, and W. C. Byrnes 425

Co-activation of sprinter and distance runner muscles in isokinetic exercise
Louis R. Osternig, Joseph Hamill, Jeffrey E. Lander, and Richard Robertson 431

Intestinal water and electrolyte flux of glucose-polymer electrolyte solutions
Keith B. Wheeler and John G. Banwell 436

The growth of children's moment of inertia
Robert K. Jensen 440

A biomechanical analysis of racewalking gait
Marilyn A. Cairns, Ray G. Burdett, Jeffrey C. Pisciotta, and Sheldon R. Simon 446

Towards optimizing rowing technique
Brian Sanderson and Walter Martindale 454

Biomechanics of the squat exercise using a modified center of mass bar
Jeffrey E. Lander, Barry T. Bates, and Paul DeVita 469

Design and validation of an automated hydrostatic weighing system
Bruce A. McClenaghan and Lisa Rocchio 479

Biological and technological variability of residual lung volume and the effect on body fat calculations
Charles Marks and Victor Katch 485

Erratum 488

Information for Authors i

Policy Statement Regarding the Use of Human Subjects and Informed Consent v

Volume 18, No. 5, 1986

Reviews

Acute soft tissue injuries—a review of the literature
John Kellett 489

Benefits of aerobic exercise for the paraplegic: a brief review
L. L. Cowell, W. G. Squires, and P. B. Raven 501

Original Investigations

The effect of athletic clothing aerodynamics upon running speed
Chester R. Kyle and Vincent J. Caiozzo 509

Effect of vibration on force sensation in fatigued muscles
E. Cafarelli and J. Layton-Wood 516

Hydraulic resistance exercise benefits cardiovascular fitness of spinal cord injured
Margaret M. Cooney and Judith B. Walker 522

Evaluation and treatment of anterior knee pain using eccentric exercise
J. Gregory Bennett and William T. Stauber 526

Self-efficacy mediates strength gains during circuit weight training in men with coronary artery disease
Craig K. Ewart, Kerry J. Stewart, Ronald E. Gillilan, and Michael H. Kelemen 531

Activity in the spinal cord-injured patient: an epidemiologic analysis of metabolic parameters
Stephen R. Dearwater, Ronald E. LaPorte, Robert J. Robertson, Gilbert Brenes, Lucile L. Adams, and Dorothy Becker 541

Cardiovascular responses to lower body negative pressure in endurance and static exercise-trained men
Michael L. Smith and Peter B. Raven 545

Aerobic fitness does not contribute to prediction of orthostatic intolerance
Victor A. Convertino, Tom M. Sather, Danielle J. Goldwater, and William R. Alford 551

A randomized exercise trial in older women: increased activity over two years and the factors associated with compliance
Andrea M. Kriska, Connie Bayles, Jane A. Cauley, Ronald E. LaPorte, Rivka Black Sandler, and Georgia Pambianco 557

Failure of weight training to affect urinary indices of protein metabolism in men
James F. Hickson, Ira Wolinsky, Gladys P. Rodriguez, James M. Pivarnik, Mary C. Kent, and Nathan W. Shier .. 563

Effects of ingesting carbohydrate beverages during exercise in the heat
Mallard D. Owen, Kevin C. Kregel, P. Tim Wall, and Carl V. Gisolfi 568

Physical activity and bone mineral content in women aged 30 to 85 years
Rachael J. Stillman, Timothy G. Lohman, Mary H. Slaughter, and Benjamin H. Massey 576

Interaction of test protocol and horizontal run training on maximal oxygen uptake
Douglas Allen, Beau J. Freund, and Jack H. Wilmore 581

Interaction of test protocol and inclined run training on maximal oxygen uptake
Beau J. Freund, Douglas Allen, and Jack H. Wilmore 588

Essay

"The burden of disproof . . ."
Victor Katch 593

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
Laurel Traeger Mackinnon 596

Response
Ronald R. Watson 597

Volume 18, No. 6, 1986

Original Investigations

Mechanical contribution to lumbar stress injuries in female gymnasts
Susan J. Hall 599

Optimal filtering of constant velocity torque data
David A. Murray 603

Constant velocity dynamometer: an appraisal using mechanical loading
David A. Murray and E. Harrison 612

Systematic ankle stabilization and the effect on performance
John R. Robinson, Edward C. Frederick, and Les B. Cooper 625

The effects of hydraulic resistance strength training in pre-pubertal males
Arthur Weltman, Carol Janney, Clark B. Rians, Ken Strand, Ben Berg, Steve Tippitt, Joyce Wise, Bernard R. Cahill, and Frank I. Katch 629

Aerobic performance in brothers, dizygotic and monozygotic twins
Claude Bouchard, Renée Lesage, Gilles Lortie, Jean-Aimé Simoneau, Pierre Hamel, Marcel R. Boulay, Louis Pérusse, Germain Thériault, and Claude Leblanc 639

Accuracy of measured and predicted residual lung volume on body density measurement
James R. Morrow, Jr., Andrew S. Jackson, Patrick W. Bradley, and G. Harley Hartung 647

Chronic low level physical activity as a determinant of high density lipoprotein cholesterol and subfractions
Timothy C. Cook, Ronald E. LaPorte, Richard W. Washburn, Neal D. Traven, Charles W. Slemenda, and Kenneth F. Metz 653

Effects of exercise and carbohydrate composition on gastric emptying
P. Darrell Neufer, David L. Costill, William J. Fink, John P. Kirwan, Roger A. Fielding, and Michael G. Flynn 658

Effects of exercise and anabolic steroids on total and lipoprotein cholesterol concentrations in male and female rats
Eileen M. Leeds, James E. Wilkerson, Gordon D. Brown, Gary Kamen, and Donald Bredle 663

Lactic acid output of cat gastrocnemius-plantaris during repetitive twitch contractions
Wendell N. Stainsby and Philip D. Eitzman 668

Effects of phosphate loading on leg power and high intensity treadmill exercise
Donald J. Duffy and Robert K. Conlee 674

Renal prostaglandin E_2 and $F_{2\alpha}$ synthesis during exercise: effects of indomethacin and sulindac
Edward J. Zambraski, Robert Dodelson, Sandra M. Guidotti, and Carol A. Harnett 678

Acute effects of marihuana smoking on maximal exercise performance
André M. Renaud and Yvon Cormier 685

Heredity and muscle adaptation to endurance training
Pierre Hamel, Jean-Aimé Simoneau, Gilles Lortie, Marcel R. Boulay, and Claude Bouchard 690

Motor neuron excitability: the Hoffmann reflex following exercise of low and high intensity
Ronald Bulbulian and Barbara L. Dorabos 697

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
David C. Poole 703

Response
Ronald Bulbulian 704

Abstract

Lymphocyte subset changes during acute maximal exercise
L. S. Berk, D. Nieman, S. A. Tan, S. Nehlsen-Cannarella, J. Kramer, W. C. Eby, and Marilyn Owens 706
